

## DESENHO TÉCNICO

Os desenhos apresentados em seguida foram todos eles elaborados já numa segunda fase, mais propriamente, no módulo ‘Desenho técnico – Representação é cotagem de peças’.

Desde já peço desculpa pela qualidade das imagens, mas na impossibilidade de digitalizar os desenhos num scanner do tamanho A3, só sobrou a possibilidade de fotografia, o que, como poderá constatar, não foi possível ficarem muito nítidas. No entanto, considero serem demonstrativas do trabalho realizado.
